**Purpose:**

### Description

"NIBE Heating" - the market leader of wood-burning stoves in Sweden. The products of this company are famous for their quality and efficient combustion technology.

**Specificities:**

- clean glass system - soot does not stick to the glass;
  - stove meets the particularly high environmental requirements and low emission standards, regardless of the heating capacity;
  - firewood logs used for heating - up to 33 cm length length;
  - non-hot handle;
  - the chimney is connected from the back or top;
  - wood consumption - approx. 1.5 kg/hour;
  - doors are made in cast iron;
  - the combustion chamber is covered with vermiculite bricks;
  - Combustion air is supplied from outside or from a nearby room. This way, the air in the stove always stays fresh;
  - with ash box under combustion chamber;
  - combustion chamber is made from high quality steel.
- The stove body has a 5-year warranty.
