Purpose:

Description

"NIBE Heating" - the market leader of wood-burning stoves in Sweden. The products of this company are famous for their quality and efficient combustion technology.

Specificities:

- with an aluminum plate on top;
 - the doors are covered with tinted glass;
 - clean glass system - soot does not stick to the glass;
 - stove meets the particularly high environmental requirements and low emission standards, regardless of the heating capacity;
 - firewood logs used for heating - up to 33 cm length;
 - non-hot handle;
 - the stove is connected from top or from the back;
 - doors are made in cast iron;
 - the combustion chamber is covered with vermiculite bricks;
 - Combustion air is supplied from outside or from a nearby room. This way, the air in the stove always stays fresh;
 - adjustable power: 3-7kW, nominal power 5kW;
 - with an ash box under the combustion chamber;
 - combustion chamber is made from high quality steel.
- The stove body has a 5-year warranty.
