

## Accumulation tank Galmet SH(B), 100L, hanging, without coil, with insulation

**Product code:** B5GLM-70-107000

**Brand:** Array

**Category:** Water heaters > Accumulation tanks

---

**PRICE : €417.99**

---

### About the product

**Manufacturer:**

**Country of origin:**

**Height, mm:** 1015

**Width, mm:** 460

**Depth, mm:** 460

**Efficiency class:**

**Made of:**

**Item type:**

**Water volume, ltr:** 106

**Mounting type:**

**Max. working pressure, bar:** 3

**Warranty, year:** 2

### Description

The accumulation tank is suitable for installation in one system with heat pumps in order to limit the on/off of the pump.

The accumulation tank is made of carbon steel and can be installed in a system that uses water or glycol.

Maximum working temperature 95°C

The tank is connected directly to the heating system, into which no air enters, so no additional protection against corrosion is required.

The possibility of installing a temperature sensor.

The body is insulated with polyurethane foam insulation, which reduces thermal losses.

This tank can also be installed in systems with passive cooling.
