Description

Features:

Fast water preparation due to the large surface area of the coil
Connections are on the right side (a model with a connection on the left side can be ordered);
Suitable for use with all types of boilers - liquid fuel, gas, coal, etc
Electric heating element with thermostat for even temperature control
up to 50% longer service life due to RESIST-TECH® technology
The inner container is enameled with EXTRA GLASS® enamel, which accurately covers the entire inner surface of the container. The enamel layer is fixed by heating it at a temperature of 850 degrees, so the coating is extremely durable.
