### Description

**Features:**

Hanging high-speed combined water heater (standing version can be ordered)  
Suitable for connection to a heating system with gas boilers;  
Faster water preparation due to larger surface area of the coil  
Suitable for installation with all types of boilers: liquid fuel, gas boilers, coal, etc.  
Up to 50% longer service life thanks to RESIST-TECH® technology  
The inner container is enameled with EXTRA GLASS® enamel, which accurately covers the entire inner surface of the container. The enamel layer is fixed by heating it at a temperature of 850 degrees, so the coating is extremely durable.
