## PRICE : €680.00

## About the product

**Manufacturer:**
**Country of origin:**
**Height, mm:** 85
**Width, mm:** 125
**Depth, mm:** 30
**Item type:**
**Warranty, year:** 2

## Description

CP touch is intended for setting the basic ventilation modes and displaying the status of the ventilation unit including the indication of fault conditions. It allows the user access to common functions or programming of the operating modes that can be operated in the manual mode or the automatic mode according to the weekly program settings. The controller also allows setting a temporary party / holiday mode. Part of the controller is an integrated room thermostat with a weekly heating/cooling program, which can also control the simple heating system by using the functions of the control module. All values can be set on the well structured graphical touch screen.
