Height, mm: 167

Width, mm: 216

Depth, mm: 284

Description

Connection for connecting the main supply or exhaust pipe from the recuperator to the distribution box from the side. Plugs into the oval socket of the distribution box, replacing one 3 x 75 module.

- Plugs into the oval socket of the distribution box in place of the 3x75 module
- It enables the connection of 125 and 160 mm pipes
- It allows the connection of spiro pipes and flexible insulated flex pipes
- Gaskets ensure tight and rigid connection
- 160 mm groove to facilitate separation of parts when not in use.
