### About the product

### Description

**Description:**

- Cast-iron wood fireboxes made from noble materials from the best foundries, 7-10 mm thickness. Fireboxes are manufactured using pure cast iron only.
  - the valve control system prevents the door opening when the valve is closed, this system avoids smoke spillage;
  - the door is blocked when the damper is closed;
  - Seguin fireboxes are equipped with an air wash system, reducing cleaning constraints.
  - The glass is resistant to high temperature up to 760°C.
  - The doors' opening mechanism is assembled with safety nuts, preventing the risks of locking or loosening.
  - With DAFS - double combustion and air distribution system, therefore fireboxes are more efficient, environmental friendly and more fuel (wood) saving.
- 10 year warranty for the fireplace casing.
