### About the product

**Height, mm:** 753

**Width, mm:** 683

**Depth, mm:** 530

### Description

The stove made from cast iron with front or side loading.

**Specificities:**

- the combustion chamber is covered with vermiculite bricks;
- The stove is equipped with a double combustion system, when additional air is supplied to the upper part of the combustion chamber for combustion. The oxygen entering the combustion chamber ignites unburned gas - this system significantly increases the heat capacity of the fireplace core, reduces the release of unwanted carbon compounds into nature;
- suitable firewood with the length of up to 45 cm;
- the fireplace is connected from above or from the end;
- heated surface up to 320 m<sup>2</sup>.

The stove body has a 10-year warranty.
