

Heat pump air to water type Gree Versati III DUO Split 10,0/9,35kW

Product code: GRS-CQ10.0PDG-PD/NHH Category: Heat pumps > Air to water heat pumps

PRICE : €6,390.00

About the product

Manufacturer: GREE electric appliances Height, mm: 1750 Width, mm: 600 Depth, mm: 600

Description

Benefits:

- Liquid crystal display and touch-screen operation;
- integrated Wifi module
 a three way value, a room thermostat (temperature censor), a water l
- a three-way valve, a room thermostat (temperature sensor), a water heater sensor, a signal cable between the indoor and outdoor unit, a coarse cleaning filter, a bottom heating cable for the outdoor unit are included in the set;
- integrated 185 I hot water tank;
- working temperature in heating mode down to -25 °C, in cooling mode from 10 to 48°C ambient temperature;
- the leaving water temperature is up to $+60\,^{\circ}\text{C}$
- refrigerant circuit R32.

Values of heat pump operating parameters when T = + 7 $^\circ$ C / + 35 $^\circ$ C:

- rated heating power (underfloor heating): 10,0 kW;
- electricity consumption (floor heating): 2,1 kW;
- COP (underfloor heating) efficiency up to: 4,8.

Values of heat pump operating parameters when T = + 35 $^\circ$ C / + 18 $^\circ$ C:

- cooling capacity (floor cooling): 9,35 kW;
- electricity consumption (floor cooling): 2,3 kW;
- EER (floor cooling) efficiency up to: 4,0.

Indoor unit parameters:

• backup heating element: 3,0 + 3,0 kW - useful when the heat received from the air is not sufficient to raise the temperature of the heat carrier;

- integrated adjustable flow circulation pump;
- safety valve 1/2 ", 3bar;
- noise pressure level: 29 dB (A).
