Air to air heat pump Amber Nordic keeps a high heating coefficient even when outdoor temperature drops to -30°C. With G10 inverter technology the heat pump works much quieter and consumes less electricity.

Description:

- I feel function - a sensor on the remote control measures the ambient temperature and sends a signal to the heat pump. The heat pump sets the temperature and air flow rate for maximum comfort in that area;
- + 8°C indoor temperature mode;
- with integrated Wifi module.

Effectively heats when the outdoor temperature drops to -30 °C and cools when the outdoor temperature drops to -18°C.
