PRICE : €522.75

About the product

Manufacturer: GREE electric appliances

Description

An air-conditioner with G10 Inverter technology, which has low-frequency performance, makes the equipment much quieter and consumes less electricity.

Heating effectively when the outdoor temperature drops to to -15°C.

Technical characteristics:

- cooling/heating power: 3,2/3,4 kW;
- energy efficiency class (cooling/heating): A++/A+++;
- efficiency factor SEER: 6,1;
- efficiency factor SCOP: 5,1;
- noise level: 24 to 41 dB(A);
- air usage: 280 to 590 m³/h;
- Refrigerant R32 is used;
- Internal unit operating temperature range: +16 to +30°C;
- Auto cleaning;
- Control using a smartphone using Wi-Fi - integrated WIFI module;
- "I Feel" function - it cools or warms the area where you place the control panel. This is useful if you do not want to refrigerate or heat the whole room but want comfort only in the intended place;
- + 8 ° C function - convenient to use if you leave premises for a long time;
- You can add more than one inner unit to one external unit;
- supplied with a control panel to select the desired working mode (cooling, heating, sleep mode, turbo, noise-free operation), fan swelling rate, etc. Additionally, a control panel for wall mounting can be ordered;
- The diameter of the pipe connection (fluid + gas):1/4"+3/8".
